Retail Orphan Initiative Logo Program

Thank you for your interest in supporting the Retail Orphan Initiative through our logo program. Our goal is to mobilize the retail industry for the purpose of:

- 1) Raising the level of awareness of the needs of the more than 143 million orphans worldwide.
- 2) Assisting companies in creating internal programs to help, such as providing mentors for foster children, providing non-paid leave for employees who adopt or are foster parents, provide no-interest loans or grants to employees that want to adopt ; and
- 3) Raising funds to help charities that are on the forefront of orphan care worldwide making a real difference.

The RetailROI logo program helps spread the word about retail's support for orphans, and provides secondary benefits to technology companies that want to demonstrate solidarity with the retail industry. Companies can choose to participate on several levels:
